Navigating the Rain

Safety and Productivity Tips for Construction Sites

Wet weather doesn't stop a site from running, but it changes what "safe" looks like. Rain brings slippery surfaces, reduced visibility, and a real risk of hypothermia for anyone spending a full shift outdoors. None of that has to slow a programme down, provided the right kit and the right habits are already in place before the forecast turns.

1. Match clothing to the conditions, not just the season

Waterproof alone isn't enough. Breathable fabric keeps body temperature steady and stops the build-up of sweat that leaves workers cold the moment they stop moving. Look for garments that combine both - not one at the expense of the other.

2. Treat footwear as part of the safety brief, not an afterthought

Slips on wet surfaces are one of the most common site injuries in poor weather. Anti-slip soles address the fall risk; waterproofing keeps feet dry and warm, which matters more than it sounds - cold, wet feet are the first step toward trench foot and lost productivity.

3. Give people somewhere to dry off

A sheltered space for breaks does two things: it gets wet clothing off before hypothermia becomes a risk, and it gives people a reason to actually take their break. A heater or drying station is the difference between a quick fix and a proper one.

4. Make hazards visible before someone finds them the hard way

Wet weather protocols only work if people know them. Pair toolbox talks with waterproof signage at the hazards themselves - standing water, worn surfaces, flood-prone access routes - so the warning is still there after the briefing ends.

We've grouped what addresses each of these on the following pages - waterproof and breathable workwear, anti-slip safety footwear, drying and shelter equipment and site signage - so you can act on it before the next wet spell, not after it.

V2120	Honey	6-13

V12 LYNX Women's Fit Boot

- True Women's fit
- Waterproof and sweat-free with Sympatex lining
- Composite toecap & composite midsole
- This safety boot is carbon neutral

Code	Colour	Size
VS2125	Honey	2-8
VS2135	Brown	2-8

V12 Groundworker PU Safety Wellington

- Anti-penetration composite midsole & comfort-fit steel toecap
- Waterproof & breathable thermal lining
- Anti-static
- EN ISO 20345:2022 S5L compliant

Code	Colour	Size
V2110	Orange/Black	3-14

Disposable Overshoes Pack of 50 Pairs

- Anti-slip textured surface at the bottom
- Ideal for protecting carpets and flooring
- Blue

Code	Colour	Size
BL3DS1-10	Blue	L

OnSite Recycled, Reusable and Recyclable Overshoes

- Washable & reusable overshoe made from recycled Polyester Taslan
- Anti-slip silicon sole helps to reduce the risk of slipping on smooth/slippery surfaces
- Long life allows overshoe to be worn for several weeks reducing waste from single use plastics
- Loop system on heel making it easier to pull up the overshoes

Code	Colour	Size
OSRTO	Black	S / M-L

Constructor Steel Toe Cap & Midsole Wellington Boots

- Abrasion resistant, water and oil resistant, anti acid alkali, anti static, slip resistant, shock resistant and anti corrosion
- With ankle protector, kick off spur and cut down bands
- EN ISO 20345 S5 SRC compliant

Code	Colour	Size
S8151	Black	4-13

Uvex Ultrasonic Safety Goggles

- Anti-mist and anti-scratch lens
- Can be worn over most prescription spectacles
- Extremely comfortable fit,
- Lightweight; with a wide, fully-adjustable headband
- EN 166

Code	Description
UV9302245	Clear

Bollé RUSH+ 2.0 Safety Glasses

Comfortable fit: Ergonomic temples & hinges
Adaptive: Multiple lens options available
Optimal vision: Platinum coated (ASAF)
Sustainable: Made of 28% recycled material
EN ISO 16321-1

Code	Description
SP4RP2	Smoke

REGATTA Kingsley 3 in 1 Waterproof Jacket

- 2-way zip-through tricot lined collar with chin guard
- Removable and adjustable lined hood with reflective peak
- Tear release outer double storm flap with studs
- Elasticated cuffs with tear release adjuster

TA1B24	7 x 5.5mtr
TA1B32	9 x 7mtr
TA1B46	14 x 9mtr

Caution Slippery Surface Free Standing Sign

Code	Description
OSG7003	300 x 575mm

ReLuminate off-grid wind / solar powered LED light - 20W

- Standalone Off-Grid Streetlight that combines both solar & wind power.
- Eliminates the need to rely on grid energy as well as the expense & inconvenience of power infrastructure installations.
- Vertically oriented & 360° deployed Solar PV panels
- 480W peak output wind turbine
- Efficient battery technology
- Vandal resistant Solar PV Panel & Luminaire housing
- High output LED optics
- High-capacity battery with >3 days backup charge assured
- Structurally assured 6mtr pole for street applications
- Concrete base weighs 950kg & with an overall weight of 1.2 tonnes (concrete base model)
- 5 Year warranty
- Zero running costs
- Zero maintenance
- Zero carbon
- Zero noise pollution
- Zero diesel fumes or spillages

Code	Description
RLOGRM6G	6 Mtr Pole
