

Recycle today, for a better tomorrow

Like you, we care about the environment. We understand the importance of waste management; doing what we can to reduce waste, so we can help protect the environment.

Construction accounts for *59% of the UK's total waste creation. Of that, 89.9% is recovered, whilst the rest enters landfill. That's a lot of waste!

With a limited number of landfill sites now available in the UK and the impact that these landfill sites have on their surrounding areas, by choosing to recycle you're helping to protect the environment for future generations to come.

Throughout the lifespan of a project you use a wide range of PPE and a lot of it. But what happens to your PPE once you're done with it?

Introducing our new PPE Recycling Service

Choose to recycle your PPE

- Reduce your carbon footprint
- Save space on your site
- Reduce your plastic bag use
- Protect the environment for future generations

Your OnSite Support PPE Recycling Service

Step 1. Requesting your PPE Recycling Unit

Contact us to request your 240L Recycling Wheeled Container. This will be delivered to your site within 24 hours. Your new PPE Recycling Unit will display instructions of use and collection. All types of PPE are suitable.

Step 2. Collection

Once $\frac{3}{4}$ full or more, instructions on the lid of your Recycling Unit will explain how to book your collection with us. You can request this by calling 01293 744 444 or emailing recycling@onsite-support.co.uk.

Please ensure you inform us whether your site requires collection to be made by a FORS approved vehicle.

Step 3. Confirmation of collection

We will then raise an order for your collection. Your PPE will be collected from site within 24 - 48 hours of receiving your request.

Step 4. Tracking your PPE recycling

Once your PPE is collected, you will be issued with a Waste Transfer note. This will enable your recycled PPE to be fully trackable, with reporting provided as standard.

For more information on our PPE Recycling Service, or to order your Recycling Unit today please call us on [01293 744 444](tel:01293744444) or email recycling@onsite-support.co.uk

Working with you to help meet your sustainability goals.
